

STEINDORFF

Polarizing Microscopes

- WF10x/18 mm eyepieces
- WF10x/18 cross-line eyepiece
- WF10x graduation eyepiece
- Trinocular or binocular viewing head
- 4 -hole nosepiece
- Objectives - Strain Free 4x, 10x, 20x and 40x
Working Distance: 18mm, 7mm, 1mm and 0.8mm
- Rotating round stage, Diameter Ø 160mm,
360 degree rotatable and graduated in 1 de-
gree increments.
- Rotatable analyzer with graduation 0 - 90
degree
- Bertrand lens, slides in and out of optical
path
- Mica $\frac{1}{4} \lambda$ sample
- Gypsum 1λ
- Quartz wedge sample
- Stage micrometer 0.01mm
- Coaxial coarse and fine focusing control
- Illumination 6v20w halogen lamp
- Dust cover, immersion oil, blue filter and
instruction manual included with each
model.
- 5 year limited warranty
